

COMMENDABLE EFFORTS TO MAKE FARIDABAD PLASTIC FREE

Modern School, Sector 17 Faridabad became the part of campaign Swachh School, Swachh Ghar in association with MCF in September 2021 which was working on plastic waste management. The initiative taken by the school is highly commendable that it is declared the ambassador of PFF (Plastic Free Faridabad) by MCF. The school received the certificate of appreciation for exemplary performance in 'Swachh Banega Faridabad'. Plastic is detrimental to the environment as it degrades the quality of air, water and land. Keeping in mind the need to make Faridabad plastic free, the students of Modern School have been sensitised to stop using the plastic and apprise the people in their neighbourhood also about the lethal consequences of using plastic. The students collected plastic from their surroundings and submitted it to the school which was further collected by MCF for recycling of the used plastic. Various activities were organised in the school to disseminate the message of harmful effects of plastic. The school took a great initiative in participating in the campaign and also formed the Eco Club to develop the habit among the students to segregate recyclable plastic waste from day to day life and taking care of environmental issues. The respected Principal, Mrs. Neelima Jain, congratulated the students for their active participation in collecting the used plastic to make their city Plastic free.
