'Progress of any nation depends upon education'

The Children today face multifarious challenges which are very different from what we encountered in our growing up years. Hence it becomes our duty to help them stay focused and calm. It is essential to imbibe in them the will to work hard and make sincere efforts. They need to develop a proactive approach and a pulpit from where they can not only attain academic success but also learn and expand the horizons of their knowledge in every skill. I am sure that the winners of 21st century will be those who will possess multiple skills.
